

Nighthawk[®] Frac Plug

Reliable. Repeatable. Results-driven.

With over 80 years of combined composites experience built in, the Nighthawk is the most efficient frac plug on the market.

Using proprietary winding methods and molded materials, our plugs are engineered for enduring dynamic frac pressures and well conditions while providing superior drill outs. This innovative design produces the finest cuttings that flow out of the well with ease.

Our products are designed and manufactured in Houston, TX by the industry's original composite frac plug co-creator.

DESIGN

HIGHLIGHTS

- Fully composite
- Highest preset prevention available
- Compact construction
- Water saving design

RUN OPTIONS

- Ball in place
- Ball drop
- Cage ball

FEATURES

- Independent self-guiding slips
- Integrated preset prevention on each slip
- 360° self-centering clutch system
- Optional pumpdown ring
